

PRESS RELEASE

06 November 2012

Through-Life Maintenance Support for Coltraco Products

Portacare™ is Coltraco's commitment to through-life maintenance and calibration support and is available now through Warsash Scientific. It applies to all products and systems, whether delivered today or back in 1990.

Over the last five years Coltraco have reduced average turnaround times on repairs and calibrations from 60 days to 3 working days and want to get better still. Portacare is designed to cap the cost of ownership for one fixed annual fee, and embody into this over 3 or 5 year contract term duration:

- All repair costs
- All labour costs
- All inspection
- Teardown and re-assembly costs
- All parts and materials costs
- All annual calibration costs
- One way freight costs

It excludes only customer-induced or accidental damage.

Over the years Coltraco has developed from a single-product company to a manufacturer of 12 products and systems, serving different markets in 105 countries across Shipping, Offshore Oil & Gas, Power Generating & Transmission, Defence, Naval and Fire Suppression. Over 90% of their products are exported.

The Portacare package may be very cost effective for your:

- Portalevel™
- Portascanner™
- Permalevel™
- Portagauge™ Management

For a 3 or 5 year Portacare proposal, contact Warsash Scientific on +61 2 9319 0122 or sales@warsash.com.au.
