

**PRESS RELEASE**

10 March 2018

## Laser diode mount with integrated heatsink

Wavelength Electronics has recently released the LDMOUNT laser diode mount designed for 14-pin butterfly laser diodes that require up to 5A. With built-in safety features and easy connection to a range of different high performance Wavelength Electronics controllers the LDMOUNT can be used in a variety of applications.

Features and benefits:

- Capable of running lasers up to 5A
- Compatible with 14-pin butterfly laser diode packages
- Type 1 and Type 2 butterfly packages are supported
- Zero insertion force (ZIF) sockets holds laser diode
- Laser interlock safety circuit
- Mounts to an optical table
- Compactible with multiple temperature controllers and laser drivers
